- **Languages:** C++, JavaScript, C, PHP
- **Frameworks:** HTML and CSS, Bootstrap, NodeJS, React
- **Tools/Platforms:** MySQL, MongoDB
- **Soft Skills:** Problem-Solving Skills, Team Player, Project Management, Adaptability

TRAINING

Data Structure and Algorithms-Self Paced(C++/Java) by GFG

May 2024

The DSA course, short for Data Structures and Algorithms, is designed to be self-paced, allowing participants to enroll at any time.

All course materials are accessible immediately upon enrollment, and students can complete the course at their own pace.

This course provided a comprehensive learning experience, guiding me through Data Structures and Algorithms from the basics to advanced concepts.

The curriculum is structured into 8 weeks, allowing participants to work through practice problems and assessments at their own pace.

The course offers a variety of programming challenges that are invaluable in preparing for interviews with leading companies like Microsoft, Amazon, Adobe, and others.

PROJECTS

• Grocery Website

April 2023

Built a grocery website using HTML, CSS, and JavaScript, providing an interactive user interface for browsing and selecting products.

Implemented various event-handling techniques to enhance user interaction, such as adding items to the cart, filtering products, and updating the UI dynamically.

Managed the project using GitHub for version control, ensuring a structured and well-maintained codebase.

Designed a responsive layout, optimizing the website for different devices and screen sizes.

Tech used: HTML, CSS, JavaScript, GitHub, VS Code

• Ecommerce Website:

November 2023

Shareable Dashboards is a live view of the Account Dashboard contains all the account reports, and can be shared externally as a link with clients or stakeholders.

Enabled agency to add their company's and client's logo for customization of the dashboard, and setting up a custom domain for the dashboard.

Tech used: VS Code, Node.js, JavaScript, HTML, CSS, MongoDB, GitHub
